OVER SIX MILLIONS

Raised by the M. E. Church as Twentieth Century Offering.

New York, July 2.—One-third of the \$20,000,000 called for by the bishops of the Methodist Episcopal church as a twentieth century thank offering has been collected. Rev. Dr. Edmund M. Mills, secretary of the commission, appointed by the general conference to take charge of the collection, amounced today that only twe-thirds of the total amount was yet to be subscribed.

The fund will be devoted to three objects. Ten million dollars will be spent on education in this country and in foreign lands. The remaining \$10,000,000 will be used for the carrying on of charity and philanthropic work, for city evangelization, for invested funds, for the support of conference claimants and

No Reason Whatever For Loss of Life in Hoboken Fire.

New York, July 3.-President Cram. at a meeting of the New York dock board today, emphatically declared that there need have been no loss of life as a result of the Hoboken fire had proper discipline been shown. He said: "Such a fire could not possibly have courred in New York city. It would be

absolutely impossible, owing to the su-periority of the docking facilities and

the fire and police departments.

"I was in Hoboken today, examining the piers of the North German Lloyd Steamship company. They are too narrow, and the space between the piers is very much too narrow.

"The piers themselves are rotten in the first place and are nothing but tinder boxes. The sheds are only made of wood and very inflammable, of course, and that's the reason the fire spread so that's the reason the fire spread so quickly and with such disastrous ef-

REPAIR SCHOOL HOUSES. Topeka Board of Education Maps Out Summer Work.

Summer Work.

Hot weather and school boards do not go well together. It was \$2.50 last night before the Topeka school board managed to secure a quorum of seven by getting Mr. Priddy out of his home, where he has been sick for some time.

Those present were Messrs. Bonebrake, Griggs. Matthews, Wilson, Priddy, Buck and Mallory. Although the meeting was small in numbers a good deal of business was transacted and the usual report that a heating plant was out of order was received. The board has just discovered that all that was paid for in the new Branner building was not put in. The heating plant was defertive. Mr. Matthews has found that the board paid for two tempering coils and II sections of heating apparatus with 3.000 feet of radiation, but that two of the sections were used for the required tempering coils. Architect Holland is held responsible for the construction of the building. He has not been paid in full and what is due him will not be paid until the heating plant is in perfect working order. At the next meeting of the board to be held July 25, the question of a new heating plant for the high school building will be decided.

The building committee submitted recommendations for improvements and repairs to be made on certain of the school buildings this summer.

The report of the committee was unandmously adopted and contracts will be made as quickly as possible for the work. The repairs and improvements will cost from \$10.000 to \$12.000 which with the four room addition to Polis school at a cost of \$12,000 and the two room addition to Euclid school at a cost of \$12,000 and the two room addition to Euclid school at a cost of \$12,000 and the two room addition to Euclid school at a cost of \$12,000 and the two room addition to Euclid school at a cost of \$12,000 will be all that can be done this year with the \$00.000 to \$12.000 will be all that can be done this year with the \$10.000 to \$12.000 will be all that can be done this year with the \$10.000 to \$12.000 will be all that can be done this securities.

A RUSH OF ORDERS Anticipated at Stock Yards Due to

Gefman Meat Inspection Law. Chicago, July 3.—A heavy increase in the force of government inspectors at the stock yards has been made necessary by a rush of orders in anticipation of the inforcement, beginning October 5 of the new German meat regulations, which are expected to restrict the sale and use of American meat and canned goods in the German empire. Chicago packers are receiving each day orders from Germany for 100,000 pounds of sausage and canned goods and in order to get this increased amount of their product inspected by the government they asked Dr. O. E. Dyson, chief of the government bureau of animal industry, to put on 25 more microscopists, which was done. This makes the force of microscopists now employed here to 100. Curtis, 63 years old, and Allen Ormsbee, about 30 years old, both of New York, and both experienced athletes lost their lives on the Crawford bridle path. Their bodies were found foday by the members of the Appalachian Mountain club, now at the summit for their annual field meetings. Curtis was formerly one of the best known athletes in America, acting as referee at nearly all inter-collegiate sports and amateur athletics for many years and was one of letics for many years and was one of founders of the New York Athletic club. He was an expert mountain climber. Ormsbee, a member of the Crescent A. A., of Brooklyn, was an expert athlete,

London Church Too Small to Hold Topeka Pastor's Andience.

London, July 3 .- Londoners fought their way to Christ church, Westminster, Sunday night to hear the Rev. Charles M. Sheldon of Topeka, Kan., but only 3,000 persons were able wedge themselves in, and so the preacher-editor was compelled to address an overflow meeting in the adjoining hall and still another that congregated in the streets. So intense was

gregated in the streets. So intense was the demonstration accorded Mr. Sheldon's address that the great audience forgot the sacred surroundings and burst into frequent applause at his arraignment of the liquor traffic and the trusts and his optimistic prophecy for the world's religious future.

The famous Kansan chose "Signs of the Times" for the subject of his maiden effort in London, declaring that the love of money was the international evil. He defined "Anglo-Saxon acquisitiveness" as "Satanic greed." In the course of his denunciations he held the managers of the New York ice trust answerable to God for murder. Then, turning to his favorite temperance theme, Mr. Sheldon startled his hearers by the statement that he had seen more drunken men and women in England and Scotland in a month than in Topeka in twelve years. He followed this home thrust with an expression of horror at his discovery that many ministers of thrust with an expression of horror at his discovery that many ministers of the gospel and church dignitaries in Great Britain were stockholders in Brit-

Speaking of religious brotherhood, Mr. Sheldon announced that a great evange-listic prepaganda would soon be undertaken in the United States by Newell Dwight Hillis of Brooklyn and other prominent American divines.

To the Christian Endeavorers of the world, whose convention Mr. Sheldon had come to attend, he suggested that politics was one of the most inviting fields of activity that lay open. He said that the present mayor of Topeka was elected by the Christian Endeavor vote and declared that organization was all that was needed to make the society a political power.

As a mark of esteem for the American guest the name of the president of the United States was incorporated in the prayer for the royal family at the conclusion of the evening's services.
